

City Nature Challenge Christchurch

Friday 26 April — Monday 29 April 2019

It's time to put Christchurch on the map by taking part in the global City Nature Challenge.

This year is the first time New Zealand has entered and we're up against 180 cities from around the world.

Can you help us win the title of World Biodiversity Capital for 2019?

The goal is to record every species living in our city. From birds and insects, to plants and fungi, we need you to help record all the nature you can find.

Anyone can get involved, whether you're a nature newbie or a life-long biodiversity buff, no matter where you are in Christchurch. Just follow these three easy steps!

1.

Download the iNaturalist app and make an account.

2.

Get outside and take photos of all the wild species you can find!

3.

Upload your findings to the iNaturalist app or website (www.inaturalist.nz)
