

# Finding your way around the Barbadoes Street Cemetery

Points to note to avoid confusion on site:

- Many of the graves are now unmarked, and exact locations can only be guessed by using surrounding headstones and referring to the cemetery plans
- Transcriptions on headstones cannot always be read easily, and many headstones fell in the 2010-11 Canterbury earthquakes.
- Multiple burials can be in different sized plots where the cemetery plans show regular sized plots.
- Scale of the plots in the cemetery plans is not accurate.
- The plan areas indicated on this map relate to the Barbadoes cemetery plans found on [Canterbury Stories](#)
- Not all burial areas have plans still in existence – see [Canterbury Stories](#)
- Not all Barbadoes burials are recorded in the [CCC Cemeteries database](#)

# Finding your way around the Barbadoes Street Cemetery

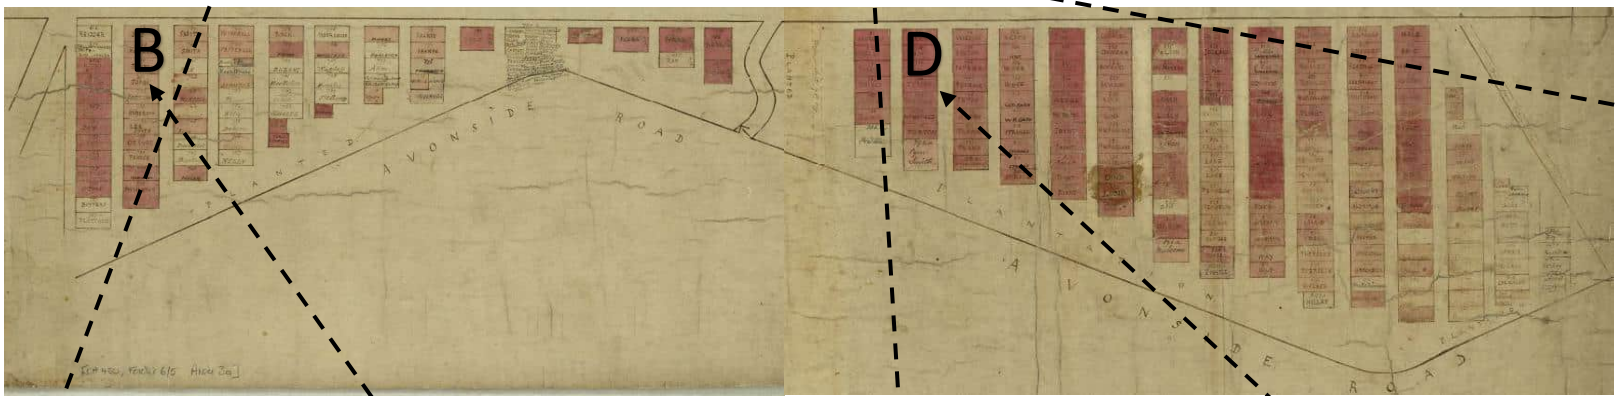

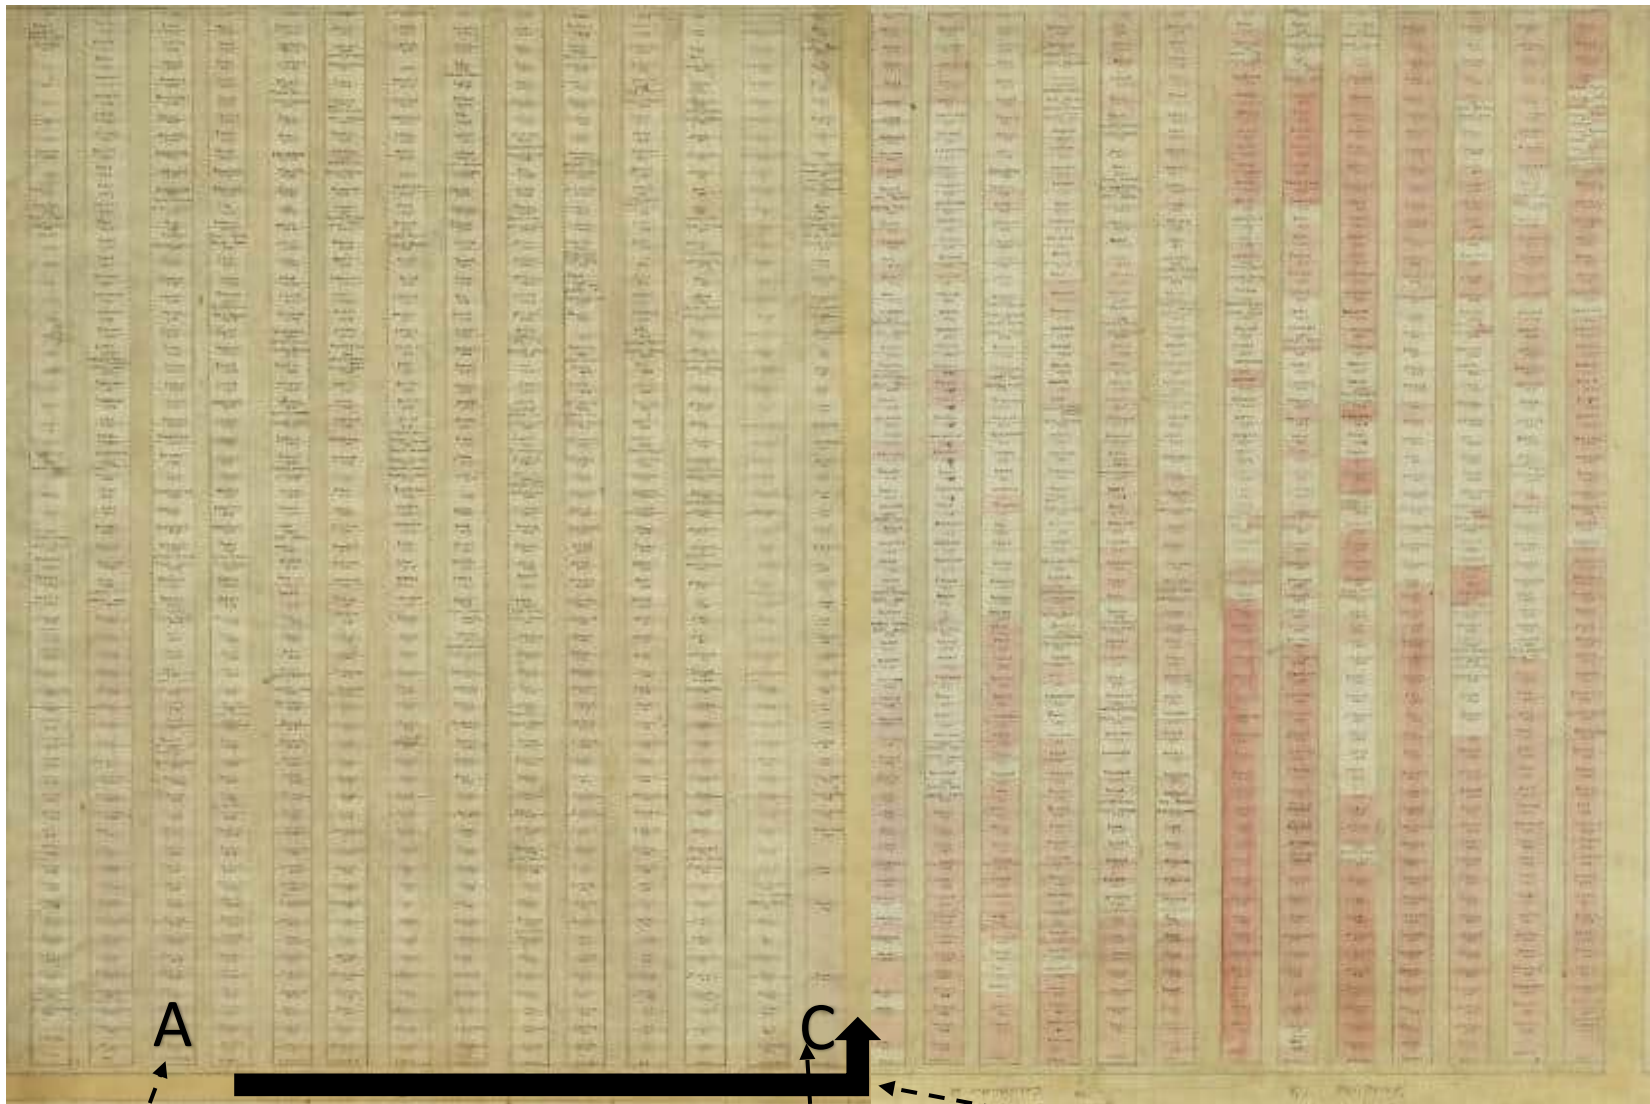

## Plan Areas 3A & 3B, and 4A & 4B

The plots identified here have gravestones still standing with legible inscriptions and should help to establish your location. The plot numbers are sourced from the [CCC Cemeteries database](#) and the cemetery plans from [Canterbury Stories](#).
