

## Template #1

Colour along the line to make it bolder and colour the stars so they shine through

Then cut out this template by cutting under the line on this side of the template as this will make the line look thicker.

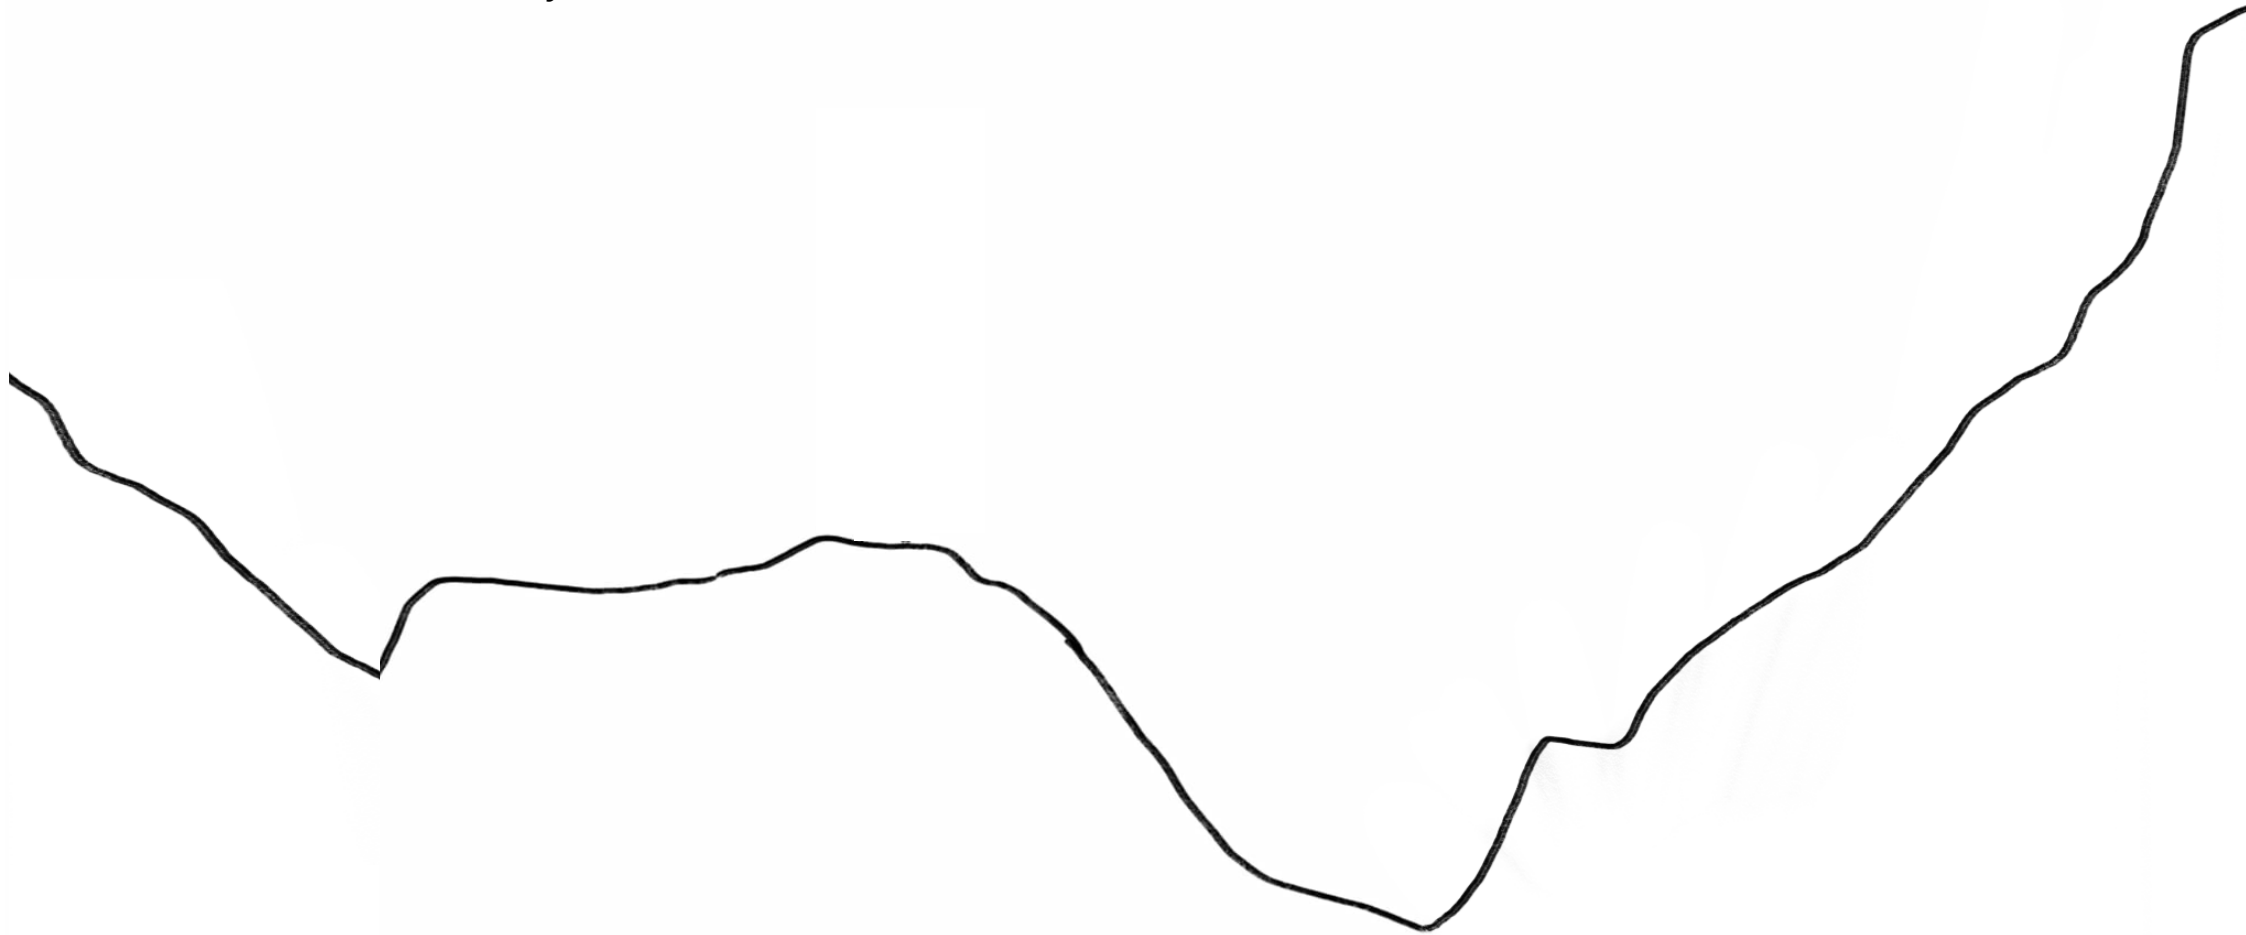

Throw the cut off bit away as it isn't needed.

## Template #2

Colour along the line to make it bolder. You can also colour in the area below the line and add grass and trees and plants.

Then cut out this template by cutting above the line on this side of the template as this will make the line look thicker.

Throw the cut off bit away as it isn't needed.
